CREATIVE WORKS

[13/10/2013 – Current]

My Portfolio Link

Me as a 2D Animator and motion graphic artist creates visually engaging graphics and animations for various media platforms, including television, film, advertising, and digital media. Their work involves combining graphic design, animation, and visual effects to convey ideas, tell stories, or create an appealing aesthetic. They use software like Adobe After Effects, Cinema 4D, and Adobe Premiere Pro to create animations, kinetic typography, and 3D graphics. Skills required include creativity, attention to detail, proficiency in design software, and an understanding of color theory, composition, and timing. Motion graphic artists often collaborate with other creatives, such as directors, editors, and sound designers, to produce cohesive and impactful visual content
