Professional summary

I'm a final-year BCA student passionate about Flutter and Dart for mobile app development. I've done an internship in flutter at Hunchha Digital for three months and published the "Teamwork" app on playstore, showcasing my skills in creating user-friendly experiences. Beside this, I have also completed various minor projects. Beyond that, I'm familiar with technologies like Node.js and React, bringing a broader skill set to the table. Eager to contribute and learn more in the dynamic field of software development.

Education

- BCA, Mechi Multiple Campus - (Expected Graduation: 2024)

Skills:

- Flutter, Dart
- Riverpod, Provider, Bloc Pattern, flutter_bloc
- Javascript, React.js, TailwindCSS
- Node.js, Firebase
- Socket.io
- MongoDB, MySQL

Experience:

- **Hunchha Digital - Flutter developer intern**

Location: Itahari, Sunsari, Nepal

Duration: December 13, 2023 - March 13, 2023

Responsibilities:

- Actively participating in the development team, contributing to the creation of high-quality mobile applications using Flutter.
- Currently involved in the project "Ubiya Derma," an ecommerce platform

for a company aimed at selling its products.

Projects:

- **Mood Tracker:**

Description: A user-friendly emotion companion app, built with Flutter and Firebase. It effortlessly captures daily moods, ensuring an intuitive experience. State management is handled seamlessly using Riverpod.

- **Teamwork - ecommerce app**

Description: It is made using Flutter, Firebase, and Node.js to seamlessly integrate ecommerce, news, and service functionalities, and state is managed using riverpod. Despite encountering client-related setbacks, the app is successfully deployed on the Google Play Store, currently at 60% completion. This project highlights my expertise in mobile app development and dedication to delivering robust, user-centric solutions.
