

# Sachet Acharya

Experienced Angular Developer with a proven ability to manage multiple priorities in fast-paced environments. Skilled in delivering high-performance applications using innovative approaches, I have a track record of successful project leadership and am committed to continuous learning and improvement. Known for my strong work ethic, creativity, and ability to bring fresh perspectives to the team, I thrive in collaborative settings and enjoy making impactful contributions to project success.

## Work Experience

### Mid-Level Angular Developer

Technofex Nepal (July 2023 – Present)

- Maintained 80%+ code coverage with unit tests, improving application reliability and issue resolution efficiency.
- Conducted code reviews for 10+ junior developers, enhancing their skills and reducing project delivery timelines.
- Significantly improved application stability by integrating NgRx.
- Improved team knowledge and code-review efficacy by conducting Angular study groups.
- Successfully led 6 projects through their setup, planning, on-time releases phases

### Junior Angular Developer

IMS Feb 2023 - Jul 2023

- Designed sleek, intuitive UIs using Angular Material, improving navigation efficiency and increasing user satisfaction by 20%.
- Enhanced Agile workflows by actively contributing to sprint planning, stand-ups, and retrospectives, boosting team productivity by 15%.
- Resolved complex technical issues and optimized application performance, reducing page load times by 30% across browsers and devices.
- Delivered scalable and maintainable code under senior developer guidance while mastering clean and semantic HTML, CSS, and SCSS.

### Intern/Trainee

DG Hub (Dec 2021 – Feb 2023)

- Set up Angular development environments using Angular CLI, reducing setup time by 40% and improving workflow efficiency.
- Enhanced interactivity through JavaScript functionality and mastered fundamental web development concepts.
- Standardized styling with variables, reducing style maintenance overhead by 25%.
- Implemented Angular basics like data binding, event handling, and template syntax, contributing to high-quality applications.

## Educational Background

### Bachelor in Science - Computer Science and Information Technology

Patan Multiple Campus (2019 – 2024)

### Intermediate Level - Science

Padmodaya Higher Secondary Model Public School (2017 – 2019)

## Skills

### Technical Skills

- Frontend Frameworks & Libraries: Angular, Angular Material, RxJS, NgRx (Redux-style state management for Angular)
- Development Tools: Angular CLI, Git, Webpack
- Programming Languages: JavaScript, TypeScript
- Testing Tools: Jasmine, Karma
- Other Skills: Agile Development, Responsive Web Design, SCSS/BEM methodology, UX basics

### Languages

- English (Fluent)
- Nepali(Fluent)

## Additional Information

- Active participation in code reviews
- Documentation and version control (e.g., Git)
- Familiarity with project management tools
- Effective problem-solving and time management
- Networking within the developer community
- Continuous learning and staying updated with industry trends
