Profile Summary

Self-taught UI/UX Designer with hands-on experience and strong foundations in design thinking, user research, and interaction design. Skilled in translating user needs into intuitive interfaces and collaborating to deliver user-centered solutions. Seeking to use my passion for design and front-end development understanding to create impactful digital experiences.

Skills

UI/UX Design: Wireframing & Prototyping (Figma, FigJam), User Research & Personas, Usability Testing, Interaction & Visual Design, Design Systems

Design Thinking: Empathy Mapping, Journey Mapping, Information Architecture

Tools & Technologies: Figma, FigJam, Notion

Front-End Basics: HTML, CSS, JavaScript, React.js, Tailwind CSS

Soft Skills: Communication, Problem Solving, Attention to Detail, Adaptability, Team Collaboration

Experience

UI/UX Design Intern | Web Studio Nepal, Gyaneshwor, Kathmandu | May 2024 – Aug 2024

- Gained hands-on experience in user research, information architecture, and user flow creation for websites, mobile apps, and desktop systems.
- Worked on a variety of client projects across web, app, and desktop platforms.
- Collaborated closely with developers to bring UI/UX concepts to life and ensure seamless implementation.
- Participated in client meetings to understand project requirements and deliver tailored design solutions.
- Iterated designs based on feedback from clients and internal team reviews to meet both user and business needs.

UI/UX Designer | Web Studio Nepal, Gyaneshwor, Kathmandu | Sep 2024 – Present

- Led the design of websites, mobile apps, and desktop platforms, from wireframes and prototypes to final visual designs.
- Conducted in-depth user research, and user flow analysis to improve product experiences.
- Collaborated closely with developers and product managers to ensure design feasibility and seamless implementation.
- Mentored new interns and junior designers, sharing best practices in design thinking and process workflows.
- Continuously iterated designs based on analytics, user feedback, and stakeholder input to optimize usability and engagement.

Projects

StudentNest-UX Case Study

[View Case Study](#)

- Conducted user research to identify pain points of students in finding trustworthy rooms near campus area and designed a solution to improve user experience.
- Created wireframes, prototypes, and high-fidelity mockups using Figma.
- Performed usability testing and iterated on designs based on feedback.

Multivendor Pet Supplies App (End-to-End UX)

[View Prototype](#)

- Designed a complete UX flow for a multi-vendor mobile application catering to pet owners.
- Created interactive prototypes to cover onboarding, product discovery, cart, checkout, and vendor profile.
- Focused on intuitive navigation, engaging visuals, and seamless purchase flow to enhance user experience.

Additional projects and case studies can be viewed in my [portfolio](#).

Education

Bachelor of Science in Computer Science and Information Technology (CSIT)

Bhaktapur Multiple Campus, TU, 2079-2083(Expected)

Additional Information

- Passionate about continuous learning in UI/UX trends and front-end technologies.
- Open to collaborative team environments and mentorship opportunities.
- Available for freelance and full-time/part-time roles in UI/UX design.
